INDEX TO VOLUME 41

Aborigines, oral pigmentation in group of Australian, 510*
ABRAMSON, I. I., 1111†
Absence of effects ascribed to fluoride following long-term ingestion of drinking water containing fluoride, pathological studies of rat kidneys, 949
Absorption of fluoride by gastric mucosa in rat, 667
Abstracts of papers presented at I.A.D.R.
  eighth annual meeting of Japanese Division, 503*
  first annual meeting of Australian Section, 510*
  ninth annual meeting of Japanese Division, 729*
  Northwest Section, 1273*
  tenth annual meeting of British Division, 1249*
Acid
  anions with hydroxyapatite, infrared studies of interaction of weak, 716‡
  pH, molarity, and saturation of rate of enamel penetration, influence of type of, 760
Acrylic resin appliance on hamster palate, effects of, 494‡
Actinomyces
  israelii, A. naesludii, Bacterionema matruchotti, and *Candida albicans* in selected areas of oral cavity and saliva, prevalence of, 1050
  naesludii, Bacterionema matruchotti, and *Candida albicans* in selected areas of oral cavity and saliva, prevalence of *Actinomyces israelii,* 1050
Activation analysis, estimation of copper in human enamel by, 1013
ADACHI, AKIRA, 737, 739*
ADACHI, HAJIME, 736*
ADACHI, MANABU, 735*
ADAMS, D., 1111,† 1249*
ADAMS, R. J., 1111†
ADAMS, R. M., 1273*
Additional study on hemolysin formation of *N. septicaemiae,* studies on experimental Vincent's infection, 4, 731*
Adhesion of foods to teeth, 821
ADY, A. B., 1111†
AFONSKY, D. A., 1111†
Agenesis and reduction in number of other teeth, third molar, 717‡
Aging characteristics of elastic duplicating compounds, 196
AGNEW, R. G., 1111†
Air embolism during root-canal therapy, 1278*
Air imbibition in carious lesions, zone of, 136
AISENBERG, A. D., 1111†
AISENBERG, M. S., 1111†
AKIYOSHI, M., 503,* 1111†
ALBRIGHT, J. T., 1111†
ALBUM, M. M., 1112†
Albumin in developing teeth of rats with autoradiography, study of distribution of iodoantipyrine and iodinated, 1064
Alcohol, studies on permeability of oral mucosa. 2. Permeability of, 739
ALLAN J. H., 1112,† 1265*
ALLDRITT, W. A. S., 1112†
ALLEN, E. F., 1112†
ALLEN, W. I., 1112†
Alloxan diabetes, effect of, on fluoride retention and caries incidence in rats, 866
Alloys, effect of mold temperature, casting pressure, and types of, on casting shrinkage, 509*
ALMAN, J. E., 815
ALTEMUS, L. A., 1112†
Alveolar bone
  biochemical investigation of alveolar bone. 1. Incorporation of Ca^{45} and P^{32} into, 736*
  1. Incorporation of Ca^{45} and P^{32} into alveolar bone, biochemical investigation of, 736*
Alveolar mucosa ("epulis") and tongue ("myoblastoma"), congenital granular-cell tumors of, 1252*
Amalgam
  fillings, corrosion of gold alloy by contact with, 734*
  made from spherical alloy particles, properties of dental, 890
  some tensile properties of, 840
AMDUR, B. H., 1112†
Ameloblasts and enamel matrix in rat molar, histochemical study of, 1293
Amelogenesis, effect of manganese chloride on, 3
AMER, A., 1112†
Amino acid
  quantitative analysis of bovine submaxillary mucoid, 791
  studies on permeability of oral mucosa. 3. Transportation of, 744
AMLER, M. H., 1112†
Amylase content and flow rate of human saliva following gustatory stimulation, observations on, 459
Analysis of inorganic constituents in dental calculus by means of neutron activation and gamma-ray spectrometry, 596
ANDERSEN, E., 214*
ANDERSON, D. J., 1112,† 1250*
ANDERSON, G. M., 1112†
ANDERSON, J. N., 1113,† 1256*
ANDLAW, R. J., 1251*
Anesthetic agent L67, clinical evaluation of new, 427
Anhydrase in bovine submaxillary gland extract, carbonic, 497‡
Anion-exchange resins, influence of, on experimentally produced oral diseases, 96
ANKER, J. H., 1113†
Announcement of I.A.D.R.'s fortieth annual meeting, 2
ANTHONY, D. H., 1113†
Antibacterial agents, effect of local, on bacteria in dental pulps of rats, 1105‡
Antibiotics, incorporation of tetracycline, in bone, teeth, and egg shells, 511*
Anticaries agents by use of artificial mouth, evaluation of, 1304

* Abstracts. † Biographies. ‡ Annotations.

Anticariogenic activity of oat hulls, studies on, 707
Antigenic composition of *Neissiria septicaemia*, studies on experimental Vincent's infection, 5, 731*
Antivitamins, effect of, on glycolysis, inhibitory, 12
AOBA, T., 1113†
Apatite, interaction of sodium fluoride and synthetic, 413
Apatites using polarized infrared spectroscopy, further studies of the structure of dental enamel and carbonate, 1251*
Application
  of atomic absorption spectroscopy to determination of calcium and magnesium in saliva, 512*
  of method of steepest ascent to response surface of nitrate-nitrite reductase activity in salivary sediment, 549
APOSTOLOPOULOS, A. X., 1113†
APPERSON, L. D., 1113†
APPLEBAUM, E., 1113†
APPLEBY, R. C., 1113†
APPLETON, J. L. T., 1113†
ARAYA, SHIMPEI, 507,* 732,* 735,* 1113†
ARCHER, W. H., 1113†
ARDEN, H. A., 1114†
Areas simulating carious lesion in enamel of teeth from dentigerous cysts, 1253*
Argon ion beams bombarding dental tissues, etching effects of, 1266*
ARKLE, P. W., 511,* 1114†
ARMSTRONG, W. D., 154, 910, 1114†
ARMSTRONG, W. G., 1257†
ARNIM, S. S., 1114†
ARNOLD, F. A., 1114†
ARTAGAVETIA-ALLENDE, R. C., 1114†
Articular disk pressure, temporomandibular, 1269*
Artificial mouth, evaluation of anticaries agents by use of, 1304
ASGAR, KAMAL, 142, 1114†
ASGIS, A. J., 1114†
ASH, J. E., 1114†
ASKEW, H. C., 1114†
ATKINSON, H. F., 1114†
Atomic absorption spectroscopy, application of, to determination of calcium and magnesium in saliva, 572*
ATWOOD, D. A., 1115†
AUERBACH, M. B., 1115†
AUSKAPS, A. M., 1115†
AUSTIN, L. T., 1115†
Australian Section, I.A.D.R., abstracts of papers presented at first annual meeting of, 510
Autoradiography
  observations on life-cycle of gingival epithelial cells of mice as revealed by, 1264*
  study of distribution of iodoantipyrine and iodinated albumin in developing teeth of rats with, 1064
AVERY, J. K., 1115†
AYERS, H. D., 1115†
AZUSAWA, H., 503*

BACKER, D. O., 1115†
Bacteria
  importance of dental units in the mechanical transfer of oral, 714‡
  relationship of indigenous to periodontal disease, 320*
Bacterial invasion of dentin around infected root canals, 1254*
Bacterial penetration into dentin, diffusion of niacin through extracted human teeth and its effect on, 684
Bacterionema matruchotti and *Candida albicans* in selected areas of oral cavity and saliva prevalence of *Actinomyces israelii*, *A. naesludii*, 1050
Bacteriophage patterns of staphylococci isolated from oral and nasal areas, relative constancy of specific, 701
BAER, P. N., 1151†
BAHN, A. N., 715,‡ 1115†
BAILEY, L. R., 1115†
BAILEY, P. J., 1367, 1267*
BAKER, C. R., 1115†
BARANOFF, A. F., 1115†
BARATIERI, A., 1116†
BARBER, T. K., 1367
BARNARD, P., 1116†
BARONE, J. J., 1116†
BARR, C. E., 1116†
BARR, J. H., 1116†
BARRETT, M. J., 1116†
BARTELS, H. A., 1116,† 1386
BATTISTONE, G. C., 1116†
BAUM, A. T., 1117†
BAUM, L., 1117†
BAUMANN, L. G., 1117†
BAUME, L. J., 1117,† 1327
BAVETTA, L. A., 366, 853, 1117†
BAWDEN, J. W., 1117,† 1349, 1475‡
BAY, R., 1117†
BEAGRIE, G. S., 1264*
BECK, J. O., 1117†
Behavior of transplanted tooth germ for differentiation and development in mice, 504*
BELDING, J. H., 1117†
BELL, W. H., 1117†
BENAGIANO, A., 1117†
Bend tests on hard-drawn and high-tensile stainless-steel wires, tensile and, 1256*
BENDER, I. B., 1117†
BENNETT, D. T., 1118†
BENNETT, J. S., 1118†
BENZER, P., 1118†
BENZER, S., 1118†
BERGER, H., 1118†
BERGER, N. D., 61
BERK, H., 1118†
BERMAN, C. L., 1118†
BERNARD, W. V., 1118†
BERNICK, S., 366, 1118†
BERNIER, J. L., 1118†
BERNSDORFF, P. V., 1119†
BERRY, H. M., 1119†
BERTOLDI, R. E., 359
BESIC, F. C., 718,‡ 1119†
BETZ, P. K., 1274*
BEUBE, F. E., 1119†
BEVELANDER, G., 1119†
BEVILACQUA, S., 1119†
BHASKAR, S. N., 1119†
BHUSSRY, B. R., 1119†
BIBBY, B. G., 1119†
BIDDINGTON, W. R., 1119†

* Abstracts. † Biographies. ‡ Annotations.

BIDDIX, J. C., 1120†
BIEDERMAN, W., 1120†
BIEN, S. M., 1120†
BIFANO, U., 1120†
Biochemical investigation
of alveolar bone. 1. Incorporation of Ca^{45} and P^{32} into alveolar bone, 735*
of periodontal membrane. 2. Respiration and nucleic acid contents in bovine incisors, 507*
BISHOP, J. G., 453, 1120†
BIXLER, D., 1120†
BJÖRK, A., 672, 1120†
BJORNDAL, A. M., 1120†
BLACKBERRY, P. E., 1120†
BLACKMORE, R. V., 1120†
BLACKWELL, R. E., 1120†
BLACKWELL, R. Q., 1120†
BLACKWOOD, H. J. J., 1121,† 1269*
BLAKE, G., 1121,† 1271*
BLAYNEY, J. R., 1037, 1121†
BLECHMAN, H., 1121,† 1386
Blood
glucose normality by analysis of oral symptoms, development of, physiologic cortisone-glucose tolerance pattern, 833
patterns of supply to teeth and adjacent tissues, 158
Blood vessels of the rat molar, 650
BLOOM, J., 1121†
BLOZIS, G. G., 1121†
BLUM, T., 1121†
BLUMENTHAL, F. R., 1121†
BLUSTEIN, R., 1121†
BODECKER, C. F., 1121†
Body fluids as related to dental caries status, inorganic phosphate concentration in, 1373
BOLDEN, T. E., 1122†
BOLING, L. R., 1122†
Bombarding dental tissues, etching effects of argon ion beams, 1266*
Bone
Evanston dental caries study. 22. A study of fluoride deposition in, 1037
and mucosa to implanted magnets, reaction of, 1438
Bone powder, effect of metal ions on relative uptake of Ca^{45} and Sr^{85} by, 1340
Bone salt
mechanism of incorporation of fluoride into, 345
soluble collagen in, 735
Boron, fluorine, and molybdenum, influence of, on morphology of rat molar, 215‡
BOSSERT, W. A., 1122†
BOSWORTH, E. B., 949
BOUCHER, C. O., 1122†
BOUCHER, L. J., 1122†
BOUCHER, N. E., 1122†
BOULGER, E. P., 1122†
BOWEN, R. L., 1122†
BOWEN, W. H., 1250*
BOWERS, R. C., 1037
β-oxybutyric acid, dental application of γ-amino, 737*
BOYD, D. A., 1123†
BOYD, T. M., 1123†
BOYDE, A., 1266*

BURROWS, L. R., 1127†
BURSTONE, C. J., 1127†
BURSTONE, M. S., 1127†
BURWASSER, P., 1127†
BURZYNSKI, N. J., 1127†
BUTCHER, E. O., 1128†
BUTLER, P. M., 1128,† 1261*
BUTTNER, W., 617, 1128†

BW1081 mouse salivary gland tumor, tissue culture characteristics of. I. Preliminary investigation of nutrient medium components, 125
BYNUM, J. W., 1128†

CABRINI, R. L., 1128†
CADELL, P. B., 1128†
Ca^{45} and P^{32} into alveolar bone, biochemical investigation of alveolar bone. 1. Incorporation of, 736*
Ca^{45} and Sr^{85}, effect of metal ions on relative uptake of, by bone powder, 1340
CAHN, L. R., 1128†
CALANDRA, J. C., 1128†
Calcifiable cell-free extract from a calcifiable micro-organism, microbiologic mineralization: a, 1383
Calcifiable micro-organism, microbiologic mineralization: a calcifiable cell-free extract from a, 1383
Calcified parts of tooth germs, contents of calcium, phosphate, and citric acid in, 506*
Calcification pattern of the human primary molars, 1276*
Calcification, studies on relationship between sulfated mucopolysaccharide formation and, 1267*
Calcifying cartilage, distribution of organically bound sulfate in, 1266*
Calcium
  deficiency of, during pregnancy in rats, tracer study on effect of dietary, 1349
  and low-phosphorus diets on mineralization in rat, effects of low-, 1257*
  and magnesium in saliva, application of atomic absorption spectroscopy to determination of, 512*
Calcium-deficient diet on mast cells associated with bone and teeth, effects of, 510*
Calcium phosphate, and citric acid in calcified parts of tooth germs, contents of, 506*
Calculus
  by means of neutron activation and gamma-ray spectrometry, analysis of inorganic constituents in dental, 596
  plaque and food impaction, relation of, to periodontal disease, 306*
CALDWELL, R. C., 821, 1128†
CALISTI, L. J. P., 1128†
CAMALIER, C. W., 1128†
CAMERON, C. E., 1129†
CAMERON, D. A., 1129†
CAMPBELL, M. J. A., 1129†
CAMPBELL, R. L., 1129†
CANBY, C. P., 1129†
Candida albicans
  in selected areas of oral cavity and saliva, prevalence of *Actinomyces israelii*, *A. naesludii*, *Bacterionema matruchotti*, and, 1050
  survey of yeast population in saliva and evaluation of some procedures for identification of, 1386.
Capping materials, electrophysiologic observations on effects of, on pulp nerve fibers, 1359
Carbonate, effect of fluorides on enamel, 1257†
Carbonate apatites using polarized infrared spectroscopy, further studies of structure of dental enamel and, 1251*
CARBONELL, V. M., 1129†
Carbonic anhydrase in a bovine submaxillary gland extract, 497‡
Carcinogenesis
  effect of chronic thiamine deficiency on oral, 1405
  in hamster, effects of polyoxyethylene sorbitan monostearate (Tween 60) upon experimental oral, 476
Carcinoma
  experimental production of labial and lingual, in mice by local application of 4-nitroquinoline *N*-oxide. A preliminary report, 730*
Caries
  activity, evaluation of laboratory tests for estimation of caries, 1274*
  activity and fluoride level and *Lactobacillus* count in saliva, relationship between dental, 586
  activity in strains of laboratory rats, comparison of dental, 1312
  attack and immaturity of dental tissue in rate, comparison between initial, 1476‡
  and caries-like enamel changes produced in vitro, infrared microscopic study of early enamel, 718‡
  in dogs, a two-year study on the production of dental, 1278*
  and mastication, occlusal status, 527
  examinations of, using the Mark-Sense system, method of recording clinical, 815
  experience, parotid fluid and serum chloride as related to dental, 496‡
  incidence in rats, effect of alloxan diabetes on fluoride retention and, 866
  inhibitory potential of sodium metabisulfite and related compounds, a comparison of, 61
  production in the cotton rat, effect of rice hulls and other seed hulls on dental, 405
  in rat, effect of dietary phosphate supplements on dental, 875
  rates, glycolysis in films of oral samples from persons with different, 1461
  relationship between thyroid function and resistance to dental, 398
Caries status, inorganic phosphate concentration in body fluids as related to dental, 1373
Cariogenic rations, comparative caries experience of littermate rats fed three different, 853
Cariogenicity of acidic and basic high-sucrose diets fed albino rats, 861
Carious lesions, zone of air imbibition in, 136
Carlson-Crittenden device for collection of parotid fluid, modified, 778
CARR, H. G., 1269*
CARR, M. W., 1129†
CARRANZA, F. A., 1129†
CARTER, W. J., 1129†
Cartilage, distribution of organically bound sulfate in calcifying, 1266*
Cartilage growth in mandibular condyle of rat using H^3-thymidine, 1269*
Cartilage resorption by chondroclasts, electron microscopy of, 883
CARVEL, R., 1129†
CASTALDI, C. R., 1130†
CASTELLI, W., 213*
Casting pressure, and types of alloys on casting shrinkage, effect of mold temperature, 509*
CATTONI, M., 997, 1130†

* Abstracts. † Biographies. ‡ Annotations.

CAUL, H. J., 1130†
Cavity
  depth, pulp reaction to silicate cement and other materials: relation to, 591
  liners, continued studies on permeability of, 66
  sealing properties of zinc phosphate cement, investigation of, 525
Cell patterns in differentiating human tooth bud, 1261*
Cell-free extract from a calcifiable micro-organism, microbiologic mineralization: a calcifiable, 1383
Cellophane membrane techniques, tissue culture study of human gingiva. 1. The morphological diversity of cells when using, 997
Cellular elements in saliva of infants before and after eruption of teeth, 1017
Cement
  investigation of cavity-sealing properties of zinc phosphate, 525
  and other materials: relation of, to cavity depth, pulp reaction to silicate, 591
Cements, improved zinc oxide–eugenol type, 1096
Cementum
  in abnormal function, histological investigation on Sharpey's fibers in tooth, 503*
  mineral content of human and seal, 624
Cephalometric photoapparatus, newer method for analyzing mandibular movement, utilizing, 508*
Cephalometrics, study on the developmental changes of dentofacial complex during fetal period by means of roentgenographic, 733*
CHACKER, F. M., 1130†
CHADHA, J. M., 466
CHAIKIN, B. S., 1130†
CHAMBERLIN, N., 66
CHANELES, J., 1130†
Changes
  in relative position of teeth in construction of denture bases, 1450
  in vascular resistance following induction of chronic unilateral periodontitis in dogs, 453
Characteristics of proteins from matrix of developing human enamel, 1258*
CHARBENEAU, G. T., 1130†
